PROFESSIONAL SUMMARY

Versatile digital professional with cross-disciplinary experience spanning AI training and prompt engineering, graphic design, video production, web development, and customer experience. Has trained AI models through Handshake AI and Outlier and brings a background in graphic design and computer support from Clincorp. A self-taught AI enthusiast and aspiring developer with hands-on experience building conversational assistants, prompt workflows, and web-connected AI agents using Python and large language models (LLMs). Skilled in voice integration, prompt engineering, and UI-driven AI solutions, with working knowledge of tools such as Cursor AI, Zencoder, and OpenRouter. Recognized for fast learning, adaptability, and delivering practical results across both technical and creative work, with a track record of problem-solving through self-learning, freelancing, and project-based execution.

EDUCATION

Kenya Methodist University, KE — Sept 2017 – July 2021

Relevant Coursework: Kenya Methodist University, Kenya — Bachelor of Business Information Technology
Business-focused IT degree covering systems analysis, databases, web development, and business management.

Oracle — Full Stack AI (ML + DL) — Self-paced
Coursework: Python, TensorFlow, PyTorch, Scikit-learn, OpenCV, NLP.

St Michael's Terige — Kenya Certificate of Secondary Education (KCSE) — 2013 – 2016

Achievers Academy, Eldoret — 2005 – 2012
Kenya Certificate of Secondary Education (KCSE)

Self-Learning / Independent Study

Pursuing self-learning through online platforms such as YouTube, Coursera, Udemy, LinkedIn Learning, and Simplilearn.

Learning Topics:

- Web Development: HTML, CSS, Tailwind CSS, JavaScript (basic)
- Python: NumPy, Pandas, Matplotlib
- Cybersecurity: Fundamentals (Ongoing)
- AI Tools: LLMs, AI Assistants, Prompt Engineering, Voice Assistants

EXPERIENCE

Handshake AI and Outlier — **United States (Remote)**
Prompt Engineer | *AI Content Generation | Prompt Engineering | LLM Models* — Sep 2025 – Present

- Designed and refined AI prompts for chatbots and social media content generation, focusing on role-based prompting, instruction design, and iterative output refinement.
- Collaborated with teams to optimize LLM outputs for real-world applications, enhancing productivity and improving AI-generated content quality.

Clin Corp Limited — **Nairobi, KE**
Graphic Designer / | IT Instructor | Computer Operations — Apr 2024 – Present

- Design and produce social media graphics, promotional posters, and branded visual content for platforms including Instagram, Facebook, and X (Twitter).
- Conceptualize, shoot, edit, and deliver video content and motion graphics to support marketing campaigns and brand awareness.
- Develop consistent visual identities and maintain brand guidelines across all digital touchpoints.
- Collaborate with the marketing team to turn campaign briefs into creative, on-brand designs, managing multiple projects to deadline.
- Use Adobe Photoshop, Illustrator, Premiere Pro, Canva, and CapCut to produce professional-grade outputs.

Freelancing Worker — **Worldwide**
Technical Resume Writer (Freelance / Peer Help) — 2019 – Present

- Created, edited, and reviewed 10+ successful resumes for students and early-career professionals using Overleaf (LaTeX), including Harvard-style formats.
- Applied to jobs and internships on clients' behalf through LinkedIn, Indeed, and other platforms, customizing resumes and cover letters using LLM tools, Resume Worded, and AI-powered optimization platforms.

Smart Image and Cyber Services — **Eldoret, KE**
Technical & Assistant Manager — Jan 2017 – Jul 2017

- Worked on printing and design jobs including flyers and posters, brochures and calendars, 3D signage, roll-up banners, T-shirt printing, engraving, funeral programs, receipt and invoice books, and wedding and engagement cards.

Noble Hotel and Conference Centre **Eldoret, KE**
Swimming Instructor (Part-time) April 2024 – Present

- Taught and trained swimmers and conducted basic workout sessions for boys and girls.
- Oversaw the pool facility, reported maintenance needs, and supervised repair work.
- Ensured the health and safety of participants and responded to accidents and emergencies following incident protocols.

TECHNICAL SKILLS

Design & Video: Adobe Photoshop, Illustrator, Premiere Pro, After Effects, Canva, CapCut, DaVinci Resolve, Midjourney; social media design, poster and print design, brand identity, typography and layout

AI & Prompt Engineering: Prompt design, instruction engineering, role-based prompts, AI workflow optimization; ChatGPT, Gemini, DeepSeek, Claude, Cursor AI, Zencoder, Google NotebookLM, Make.com

Development: HTML, CSS, Tailwind CSS, JavaScript (basic), Python (learning), VS Code, Jupyter Notebook, GitHub, Overleaf

Productivity: MS Office (Word, Excel, Power BI, PowerPoint, OneNote, Teams, SharePoint)

Soft Skills: Problem solving, adaptability, fast learning, communication, teamwork, remote collaboration, critical thinking

PROJECTS

- **ROCCHI–AI Conversational Assistant.v1**:A full-featured conversational AI assistant powered by DeepSeek and LLMs. Built with Python and integrated with voice interaction and personalized response tuning for natural and context-aware conversations.
- **ROCCHI-Universal-OpenRouter-AI-Assistant.v2.0**:An advanced AIassistant integrating LLM capabilities with Open Router API to access multiple large language models and real-time internet data. Features dynamic web search, live data retrieval, multi-model routing, voice interaction, and personalized conversational context, allowing highly adaptive and up-to-date responses across diverse tasks.
- **Jack – AI Travel Assistant** : A voice-enabled AI travel assistant developed in Python using OpenAI APIs. Jack provides real-time travel suggestions, location-based tips, and conversational interaction in a simple, user-friendly interface designed for travelers.
